# CONTENTS

**Proceedings of the Conference on Pollen Systems to Detect Biological Activity of Environmental Pollutants**

**S. S. Sandhu.** Regulation of environmental pollutants: introductory remarks ..... 1

**A. L. Hodgdon, A. H. Marcus, P. Arenaz, J. L. Rosichan, T. P. Bogyo, and R. A. Nilan.** Ontogeny of the barley plant as related to mutation expression and detection of pollen mutations ..... 5

**J. P. Mascarenhas.** Microspore and microgametophyte development in relation to biological activity of environmental pollutants ..... 9

**M. Freeling.** Toward monitoring specific DNA lesions in the gene by using pollen systems. ..... 13

**R. A. Nilan, J. L. Rosichan, P. Arenaz, A. L. Hodgdon, and A. Kleinhofs.** Pollen genetic markers for detection of mutagens in the environment ..... 19

**M. J. Constantin.** Pollen embryogenesis to induce, detect, and analyze mutants .... 27

**E. Amano.** Genetic and biochemical characterization of waxy mutants in cereals .... 35

**K. Sree Ramulu, H. Schibilla, and P. Dijkhuis.** Self-incompatibility system of *Oenothera organesis* for the detection of genetic effects at low radiation doses .... 43

**E. K. Porter.** Origins and genetic nonvariability of the proteins which diffuse from maize pollen ..... 53

**M. J. Plewa and E. D. Wagner.** Germinal cell mutagenesis in specially designed maize genotypes ..... 61

**D. Schwartz.** *Adh* locus in maize for detection of mutagens in the environment .... 75

**D. F. Weber.** Maize pollen test systems to detect nondisjunction ..... 79

**T.-H. Ma.** Tradescantia micronucleus bioassay and pollen tube chromatid aberration test for *in situ* monitoring and mutagen screening ..... 85

**D. L. Mulcahy.** Pollen tetrads in the detection of environmental mutagenesis ..... 91

**D. E. Bilderback.** Impatiens pollen germination and tube growth as a bioassay for toxic substances ..... 95

**W. G. Rosen.** Pollen systems to detect phytoxicants in the environment: an introduction ..... 105

**P. D. Ascher.** Effects of exogenous materials on pollen tube growth in *Lilium longiflorum* pistils ..... 107

**W. A. Feder.** Bioassaying for ozone with pollen systems ..... 117

**P. L. Pfahler.** *In vitro* germination characteristics of maize pollen to detect biological activity of environmental pollutants ..... 125

**D. Pinkel.** On the possibility of automated scoring of pollen mutants ..... 133

**H. W. Tyrer.** Technology for automated analysis of maize pollen used as a marker for mutation: 1. Flow-through systems ..... 137

**H. W. Tyrer.** Summary of workshop on automation ..... 143

**S. Ichikawa.** *In situ* monitoring with Tradescantia around nuclear power plants ..... 145

**E. Amano.** Flow system for automated analysis of maize pollen ..... 165

**Contributed Articles**

**M. R. Pereira and E. F. Ferrand.** Assessing levels of airborne bioallergens in New York City ..... 171

**J. E. Trosko, B. Dawson, and C.-C Chang.** PPB inhibits metabolic cooperation in Chinese hamster cells *in vitro*: its potential as a tumor promoter ..... 179

**E. M. Bem.** Determination of selenium in the environment and in biological material .... 183

---

**Letters to the Editor**

**T. Hawkins** ..... 201

**G. Saxenmeyer** ..... 202

---

**Announcements** ..... 205

**Previous Volumes of EHP** ..... 207

# CONTENTS

**Conference on Target Organ Toxicity: Endocrine Systems**

**K. S. Korach, J. A. Thomas and J. A. McLachlan.** Introduction ..... 1

**Testes**

**J. A. Thomas.** Introductory remarks: The testes ..... 3

**D. J. Tindall, J. S. Tash and A. R. Means.** Factors affecting Sertoli cell function in the testis ..... 5

**L. P. Bullock.** Brief overview of selected aspects of testicular hormone action ..... 11

**L. L. Ewing, B. R. Zirkin and C. Chubb.** Assessment of testicular testosterone production and leydig cell structure ..... 19

**E. Steinberger.** Current status of studies concerned with evaluation of toxic effects of chemicals on the testes ..... 29

**Ovary**

**R. L. Butcher and R. D. Page.** Introductory remarks: Environmental and endogenous hazards to the female reproductive system ..... 35

**K. S. Korach.** Selected biochemical actions of ovarian hormones ..... 39

**G. D. Niswender.** Response of the corpus luteum to luteinizing hormone ..... 47

**M. E. Freeman.** Control of the corpus luteum: A model system for toxicology research ..... 51

**Thyroid**

**E. B. Flink.** Introductory remarks: The thyroid gland ..... 55

**G. A. Hedge, K. C. Wright and A. Judd.** Factors modulating the secretion of thyrotropin and other hormones of the thyroid axis ..... 57

**J. Robbins.** Factors altering thyroid hormone metabolism ..... 65

**C. P. Barsano.** Environmental factors altering thyroid function and their assessment ..... 71

**K. C. Wright and G. A. Hedge.** Pharmacological studies of the involvement of hypothalamic prostaglandins in the regulation of thyrotropin secretion ..... 83

**Adrenal Cortex and Selected Topics**

**D. A. Young, B. P. Voris and M. L. Nicholson.** Cellular and biochemical actions of adrenal glucocorticoid hormones on rat thymic lymphocytes ..... 89

**E. B. Thompson.** Factors affecting adrenocortical hormone function ..... 99

**W. C. Brogan, III, P. R. Miles and H. D. Colby.** Lipid peroxidation in adrenal and testicular microsomes ..... 105

**R. L. Singhal.** Testicular cyclic nucleotide and adrenal catecholamine metabolism following chronic exposure to cadmium ..... 111

**H. D. Colby.** Chemical suppression of steroidogenesis ..... 119

**J.-A. Gustafsson, P. Eneroth, T. Hökfelt, A. Mode, G. Norstedt and P. Skett.** Role of the hypothalamo-pituitary-liver axis in sex differences in susceptibility of the liver to toxic agents ..... 129

**R. I. Nicholson, K. Griffiths, R. W. Blamey, H. M. Bishop and J. L. Haybittle.** Estrogen receptors and breast cancer ..... 143

**Contributed Articles**

**J. M. Holland, D. A. Wolf and B. R. Clark.** Relative potency estimation for synthetic petroleum skin carcinogens ..... 149

**Announcements** ..... 157

# CONTENTS

**Conference on Target Organ Toxicity: Blood**

**R. D. Irons.** Target organ toxicity: the blood and bone marrow. Introduction ..... 1

**D. E. Rickert, T. S. Baker and J. P. Chism.** Analytical approaches to the study of the disposition of myelotoxic agents ..... 5

**D. W. Nebert.** Genetic differences in susceptibility to chemically induced myelotoxicity and leukemia ..... 11

**J. A. Heddle and M. F. Salamone.** Chromosomal aberrations and bone marrow toxicity ..... 23

**E. W. Lee, J. J. Kocsis and R. Snyder.** The use of ferrokinetics in the study of experimental anemia ..... 29

**R. D. Irons.** Benzene-induced myelotoxicity: application of flow cytofluorometry for the evaluation of early proliferative change in bone marrow ..... 39

**A. Mangalik and W. A. Robinson.** Stem cell assays in the evaluation of myelotoxicity .... 51

**A. Dritschilo and D. S. Sherman.** Radiation and chemical injury in the bone marrow ..... 59

**S. Piomelli.** Chemical toxicity of red cells ..... 65

**J. C. Marsh.** Chemical toxicity of the granulocyte ..... 71

**L. D. Loose, J. B. Silkworth, T. Charbonneau and F. Blumenstock.** Environmental chemical-induced macrophage dysfunction ..... 79

**R. H. Adamson and S. M. Sieber.** Chemically induced leukemia in humans ..... 93

**J. B. Silkworth and L. D. Loose.** Assessment of environmental contaminant-induced lymphocyte dysfunction ..... 105

**Contributed Articles**

**E. A. Brzeźnicka and J. Chmielnicka.** Interaction of alkylmercuric compounds with sodium selenite. I. Metabolism of ethylmercuric chloride administered alone and in combination with sodium selenite in rats ..... 131

**C. Jelinek.** Occurrence and methods of control of chemical contaminants in foods .... 143

**T. S. Veninga, J. Wagenaar and W. Lemstra.** Distinct enzymatic responses in mice exposed to a range of low doses of ozone ..... 153

# CONTENTS

**Proceedings of a Workshop/Conference on the Role of Metals in Carcinogenesis**

**A. Robbins.** Foreword ..... 1

**General summary** ..... 3

**Introduction, general findings and general recommendations** ..... 5

**Problems of epidemiological evidence** ..... 11

**Experimental studies in whole animal bioassay** ..... 21

**Chemistry and metabolism of metals relevant to their carcinogenicity** ..... 27

***In vitro* models and methods for bioassay and studies of cellular mechanisms** .... 35

**L. Fishbein.** Sources, transport, and alterations of metal compounds: an overview I. arsenic, beryllium, cadmium, chromium and nickel ..... 43

**G. F. Nordberg and O. Andersen.** Metal interactions in carcinogenesis: enhancement, inhibition ..... 65

**A. Furst.** Bioassay of metals for carcinogenesis: whole animals ..... 83

**G. Pershagen.** The carcinogenicity of arsenic ..... 93

**M. Kuschner.** The carcinogenicity of beryllium ..... 101

**M. Piscator.** Role of cadmium in carcinogenesis with special reference to cancer of the prostate ..... 107

**T. Norseth.** The carcinogenicity of chromium ..... 121

**F. W. Sunderman, Jr.** Recent research on nickel carcinogenesis ..... 131

**G. Kazantzis.** Role of cobalt, iron, lead, manganese, mercury, platinum, selenium and titanium in carcinogenesis ..... 143

**M. A. Sirover.** Effects of metals in *in vitro* bioassays ..... 163

**H. Vainio and M. Sorsa.** Chromosome aberrations and their relevance to metal carcinogenesis ..... 173

**K. S. Squibb and B. A. Fowler.** Relationship between metal toxicity to subcellular systems and the carcinogenic response ..... 181

**T. G. Rossman.** Effect of metals on mutagenesis and DNA repair ..... 189

**R. A. Zakour, T. A. Kunkel and L. A. Loeb.** Metal-induced infidelity of DNA synthesis ..... 197

**A. E. Martell.** Chemistry of carcinogenic metals ..... 207

**J. Schubert.** Chelating agents in biological systems ..... 227

**K. W. Jennette.** The role of metals in carcinogenesis: biochemistry and metabolism .... 233

**Contributed Articles**

**A. J. Wyrobek, G. Watchmaker, L. Gordon, K. Wong, D. Moore II and D. Whorton.** Sperm shape abnormalities in carbaryl-exposed employees ..... 255

**W. V. Dashek, R. L. Harman, L. B. Adlestein, W. A. Morton, B. M. Rapisarda, J. C. Chancey and G. C. Llewellyn.** Use of *Lilium longiflorum*, cv. ace pollen germination and tube elongation as a bioassay for the hepatocarcinogens, aflatoxins .... 267

**Announcement** ..... 279
**Erratum** ..... 279
**Previous volumes of EHP** ..... 281

# CONTENTS

**Conference to Reevaluate the Toxicity of Vinyl Chloride, Poly(vinyl Chloride) and Structural Analogs**

**R. J. Waxweiler, P. J. Landrigan, P. Infante and R. Shapiro.** Introduction ..... 1

**C. Maltoni, G. Lefemine, A. Ciliberti, G. Cotti and D. Carretti.** Carcinogenicity bioassays of vinyl chloride monomer: a model of risk assessment on an experimental basis ..... 3

**Y. Suzuki.** Neoplastic and nonneoplastic effects of vinyl chloride in mouse lung ..... 31

**D. H. Groth, W. B. Coate, B. M. Ulland and R. W. Hornung.** Effects of aging on the induction of angiosarcoma ..... 53

**M. J. Radike, K. L. Stemmer and E. Bingham.** Effect of ethanol on vinyl chloride carcinogenesis ..... 59

**R. M. Hehir, B. P. McNamara, J. McLaughlin, Jr., D. A. Willigan, G. Bierbower and J. F. Hardisty.** Cancer induction following single and multiple exposures to a constant amount of vinyl chloride monomer ..... 63

**D. H. Groth, D. W. Lynch, W. J. Moorman, L. E. Stettler, T. R. Lewis, W. D. Wagner and C. Kommineni.** Pneumoconiosis in animals exposed to poly(vinyl chloride) dust ..... 73

**J. C. Wagner and N. F. Johnson.** Preliminary observations of the effect of inhalation of PVC in man and experimental animals ..... 83

**C. Maltoni and P. Lodi.** Results of sputum cytology among workers exposed to vinyl chloride monomer and to poly(vinyl chloride) ..... 85

**P. F. Infante.** Observations of the site-specific carcinogenicity of vinyl chloride to humans ..... 89

**H. Weber, W. Reinl and E. Greiser.** German investigations on morbidity and mortality of workers exposed to vinyl chloride ..... 95

**W. C. Cooper.** Epidemiologic study of vinyl chloride workers: mortality through December 31, 1972 ..... 101

**H. Falk, J. Herbert, S. Crowley, K. G. Ishak, L. B. Thomas, H. Popper and G. G. Caldwell.** Epidemiology of hepatic angiosarcoma in the United States: 1964-1974 .... 107

**P. J. Baxter.** The British Hepatic Angiosarcoma Register ..... 115

**C. H. Tamburro and R. Greenberg.** Effectiveness of federally required medical laboratory screening in the detection of chemical liver injury ..... 117

**R. N. Wheeler, Jr.** Poly(vinyl chloride) processes and products ..... 123

**J. H. Jones.** Worker exposure to vinyl chloride and poly(vinyl chloride) ..... 129

**L. Chiazze, Jr., and L. D. Ference.** Mortality among PVC-fabricating employees .... 137

**G. Molina, B. Holmberg, S. Elofsson, L. Holmlund, R. Moosing and P. Westerholm.** Mortality and cancer rates among workers in the Swedish PVC processing industry ..... 145

**G. Mastrangelo, B. Saia, G. Marcer and G. Piazza.** Epidemiological study of pneumoconiosis in the Italian poly(vinyl chloride) industry ..... 153

**R. J. Waxweiler, A. H. Smith, H. Falk and H. A. Tyroler.** Excess lung cancer risk in a synthetic chemicals plant ..... 159

**R. Lilis.** Review of pulmonary effects of poly(vinyl chloride) and vinyl chloride exposure ..... 167

**J. A. John, F. A. Smith and B. A. Schwetz.** Vinyl chloride: inhalation teratology study in mice, rats and rabbits ..... 171

**J. M. Rice.** Prenatal susceptibility to carcinogenesis by xenobiotic substances including vinyl chloride ..... 179

**J. D. Fabricant and M. S. Legator.** Mutagenicity studies of vinyl chloride ..... 189

**M. Hatch, J. Kline and Z. Stein.** Power considerations in studies of reproductive effects of vinyl chloride and some structural analogs ..... 195

**W. F. Dimmick.** EPA programs of vinyl chloride monitoring in ambient air ..... 203

**N. J. Vianna, J. Brady and P. Harper.** Angiosarcoma of the liver: a signal lesion of vinyl chloride exposure ..... 207

**K. C. Chu and H. A. Milman.** Review of experimental carcinogenesis by compounds related to vinyl chloride ..... 211

**R. Apfeldorf and P. J. Infante.** Review of epidemiologic study results of vinyl chloride-related compounds ..... 222

**D. Hattis.** Needs for public health intervention and needs for new research on vinyl halides and their polymers: a public policy perspective ..... 227

**Contributed Articles**

**R. M. Stern.** Process-dependent risk of delayed health effects for welders ..... 235

**J. H. Ware, L. A. Thibodeau, F. E. Speizer, S. Colome and B. G. Ferris, Jr.** Assessment of the health effects of atmospheric sulfur oxides and particulate matter: evidence from observational studies ..... 255

**R. Jourmard, M. Chiron, R. Vidon, M. Maurin and J.-M. Rouzioux.** Mathematical models of the uptake of carbon monoxide on hemoglobin at low carbon monoxide levels ..... 277

**J. C. Westman and J. R. Walters.** Noise and stress: a comprehensive approach .... 291

**Erratum** ..... 311

**Previous volumes of EHP** ..... 312

# CONTENTS

**First Annual Symposium on Environmental Epidemiology**

**E. P. Radford.** Introduction ..... 1

**N. A. Esmen.** Limitations on dose estimation ..... 3

**Y. Alarie.** Dose-response analysis in animal studies: prediction of human responses ..... 9

**C. E. Land.** Statistical limitations in relation to sample size ..... 15

**B. Altshuler.** Modeling of dose-response relationships ..... 23

**Discussion: session 1.** Detection of health effects of exposure to low doses of agents—scientific constraints ..... 29

**M. A. Schneiderman.** Extrapolation from incomplete data to total or lifetime risks at low doses ..... 33

**P. E. Enterline.** Extrapolation from occupational studies: a substitute for environmental epidemiology ..... 39

**E. P. Radford.** Sensitivity of health endpoints: effect on conclusions of studies ..... 45

**R. J. Waxweiler.** Epidemiologic problems associated with exposure to several agents ..... 51

**Discussion: session 2.** Detection of health effects of exposure to low doses of agents—epidemiologic problems ..... 57

**V. R. Hunt.** Epidemiological studies for regulatory agencies ..... 61

**M. Bundy.** When are studies adequate for regulatory purposes? View of one regulated ..... 67

**I. H. Billick.** Lead: a case study in interagency policy-making ..... 73

**L. H. Kuller.** Who should provide research initiative and support? ..... 81

**Discussion: session 3.** Policy issues in applying epidemiologic evidence ..... 89

**N. L. Petrakis.** Genetic-environmental interactions in relation to low dose studies: a possible model from breast cancer ..... 97

**J. C. Christian.** Use of twins to study environmental effects ..... 103

**M. K. Conner and N. Wald.** Chromosomal methods in population studies ..... 107

**Discussion: session 4.** New approaches to detecting low-dose effects ..... 115

**J. Kline, B. Levin, Z. Stein, M. Susser and D. Warburton.** Epidemiologic detection of low dose effects on the developing fetus ..... 119

**E. A. Murphy.** Detection of genetic effects of environmental agents ..... 127

**C. K. Redmond.** Sensitive population subsets in relation to effects of low doses ..... 137

**Discussion: session 5.** Epidemiologic investigation of special groups ..... 141

---

**Contributed Articles**

**B. E. Vaughan, J. K. Soldat, R. G. Schreckhise, E. C. Watson and D. H. McKenzie.** Problems in evaluating radiation dose via terrestrial and aquatic pathways ..... 149

**F. Perera.** Carcinogenicity of airborne fine particulate benzo(a)pyrene: an appraisal of the evidence and the need for control ..... 163

**J. I. Rader, J. T. Peeler and K. R. Mahaffey.** Comparative toxicity and tissue distribution of lead acetate in weanling and adult rats ..... 187

**J. Miller and F. C. Boswell.** Cadmium, lead and zinc in growing rats fed corn leaf tissue grown on soil amended with sewage sludge or heavy metal salts ..... 197

**S.-P. Lan and C. Shy.** Effect of air pollution on chronic respiratory disease in the New York City metropolitan area, 1972 ..... 203
